

Update on the Integration and Synthesis Group

Theodore Heintz

May 26, 2004

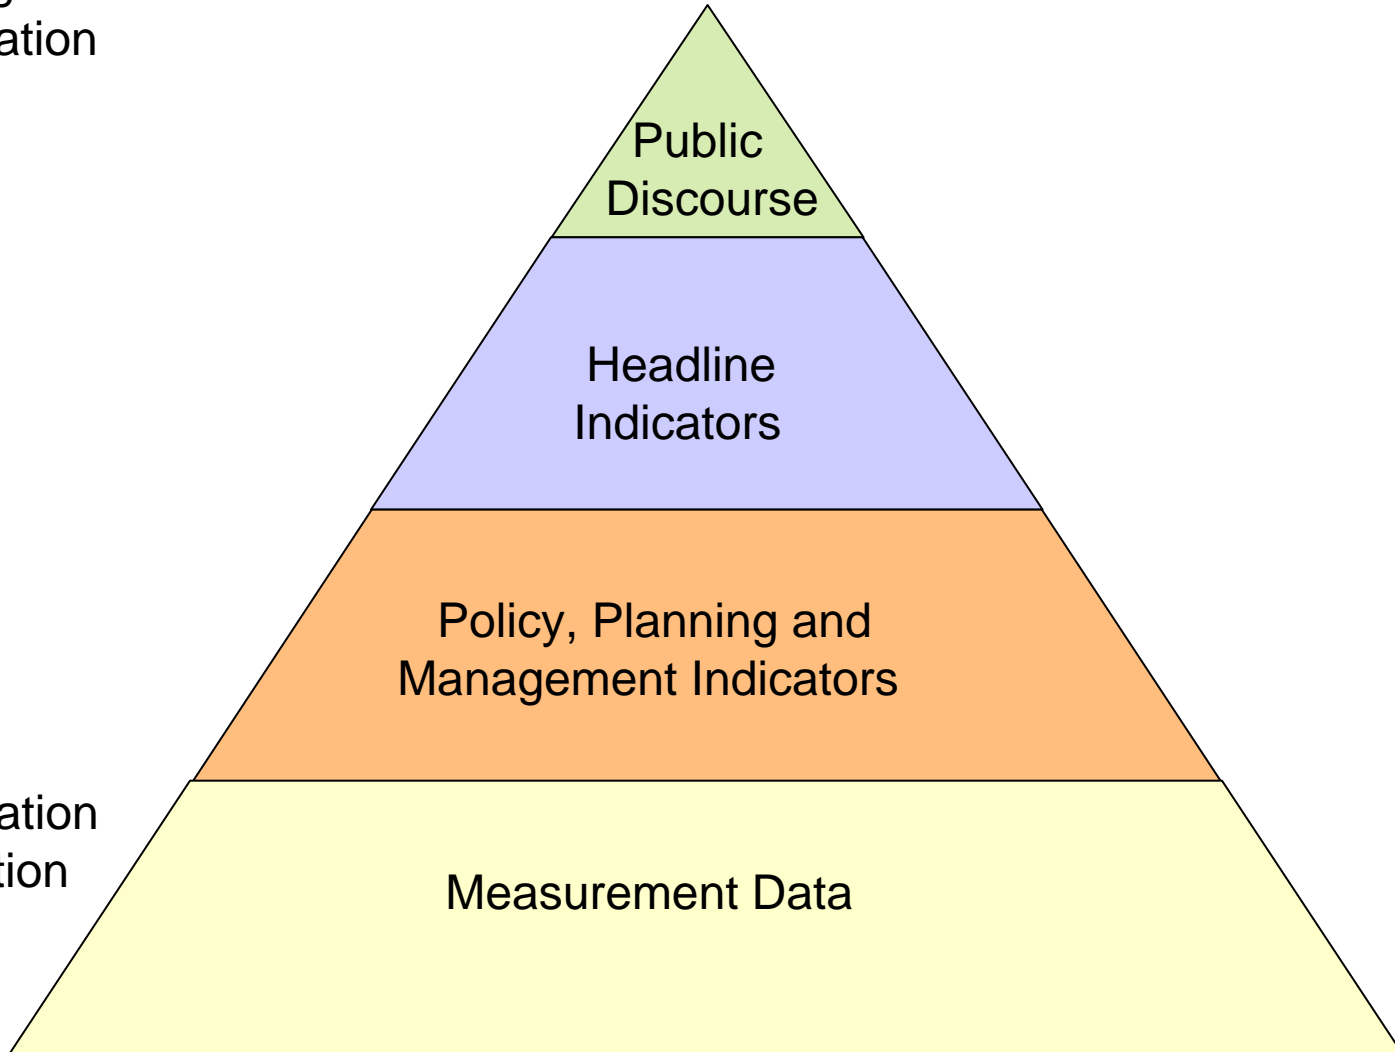

Integration and Synthesis Group

- Formed by the Roundtable Network
- Participants from four roundtables and other indicator projects
- Drawing upon concepts from roundtables and other projects

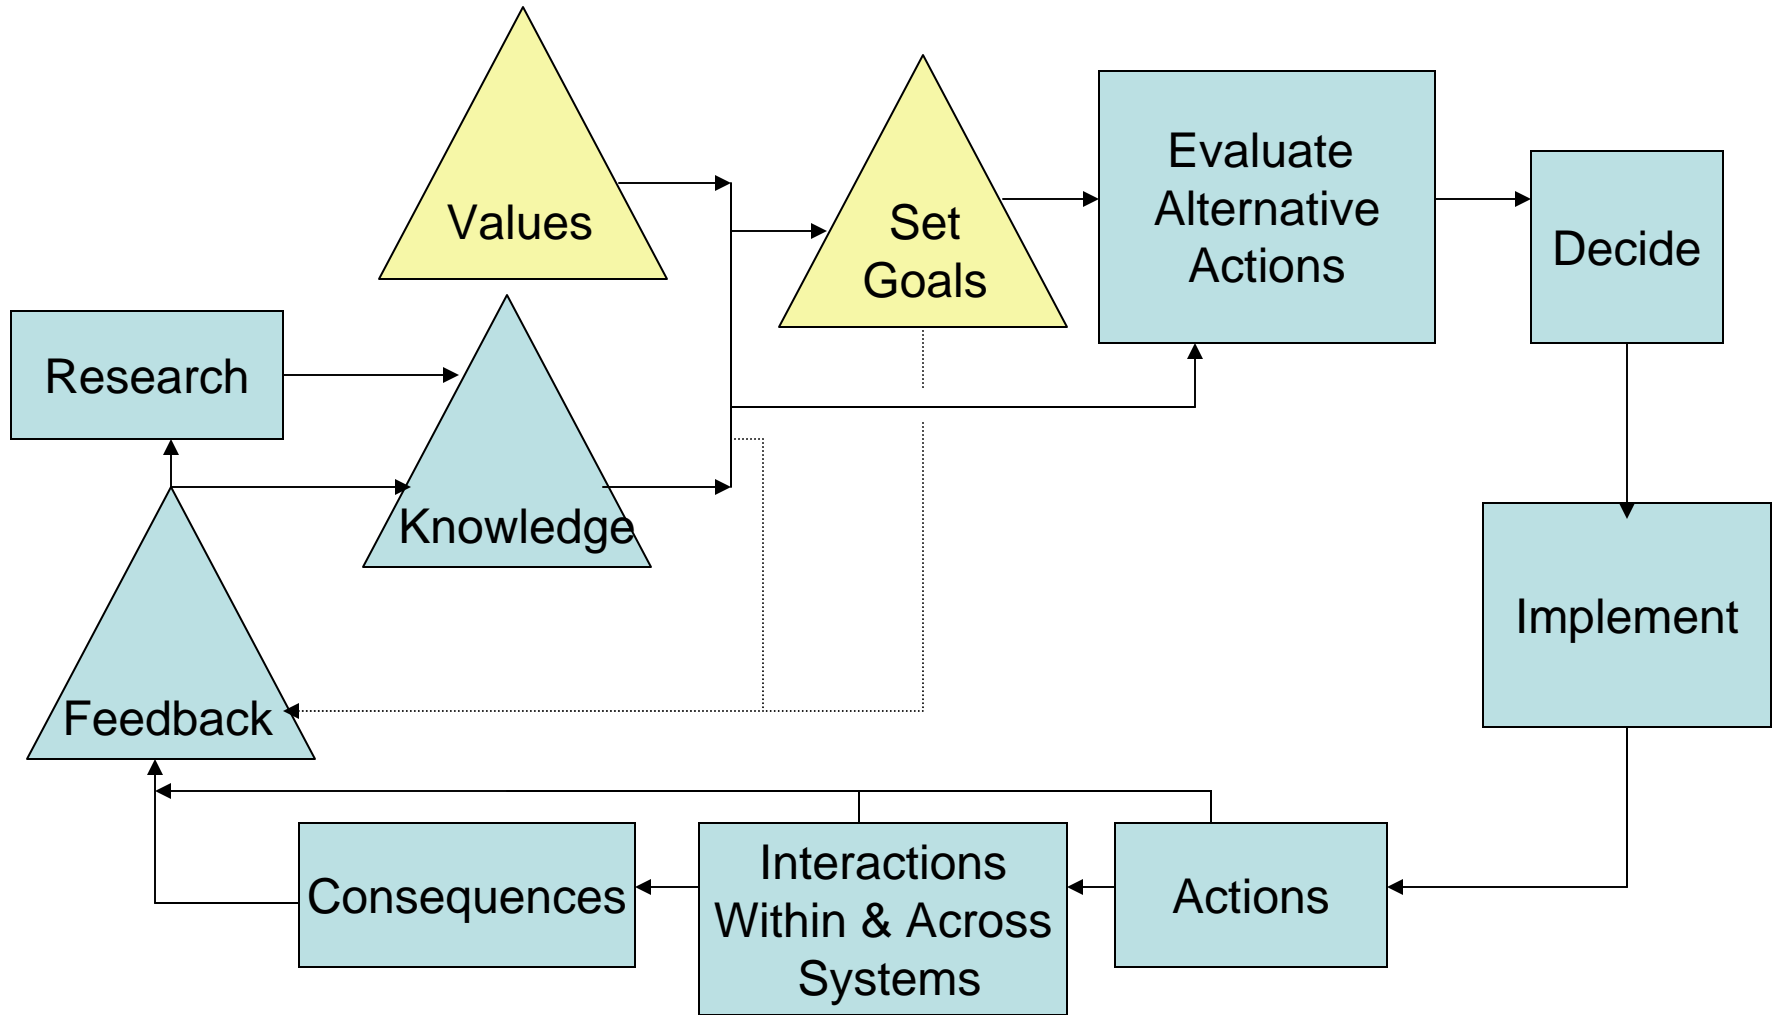

Integration and Synthesis Group Objectives

- Develop a systems-based framework, derived from conceptual models, within which to place indicators of sustainability.
- Provide a strong theoretical foundation for further integration and synthesis.
- Provide a basis for integrated sustainability assessments of mixed resource systems.
